

THE BLAIRMORE ENTERPRISE

VOL. XVII, NO. 47.

THE BLAIRMORE ENTERPRISE, THURSDAY, NOVEMBER 25, 1926.

The first of a series of services, in the form of Old-Country Night of people's service, was held in the United church at Fernie on Sunday night last. The object of these services is to give prominence to those national elements from the Old Land which lie at the basis of our Canadian nationhood, attempting to bring out the contribution made to the Empire and the world by the English, Scotch, Irish and Welsh.

O.E.S. BAZAAR

A grand bazaar will be held in the Lodge Hall on Wednesday next, under the auspices of Vimy Chapter, Order of Eastern Star. Stalls of fancy work, home cooking, etc., will be operated from 3 p.m., and tea will be served from 3 to 6.

At 8 o'clock, a whist drive will start, to be followed by supper and a dance.

LATEST TELEGRAPHIC NEWS

PARIS, Nov. 25.—Skirts and incomes become lower, following November 30. The former will reach to within one and a half inches above the ankles. No possible chance of using the old ones unless you convert two into one. A general reduction in incomes will also take place the same date.

EXPLOSION AT

MCGILLIVRAY MINE

No. 4 mine of the McGillivray Creek Coal & Coke Company, at Coleman, was the scene of a terrific explosion at about five o'clock on Tuesday morning, which snuffed out the lives of ten miners and did considerable damage to the workings.

Owing to fire having broken out shortly after the explosion, rescue work was made practically impossible and up to the present only one body has been recovered.

The missing men, for whom all hope of being recovered alive has been abandoned, are: W. White, fire boss; W. Young, M. Yurek, A. Leitch, W. Pylek, J. Ukrainetz, Alex. Morris, D. Meek, George Johnson and R. Fairfull. Fairfull's body has been recovered. Two others were located and placed in mine cars, but rescue gangs were obliged to make hasty return to the surface and were unable to bring out the cars.

Fairfull was on his first shift for several months, having just recovered from a period of sickness. Of the others, George Johnson is probably the best known locally, he having worked with P. Burns & Co. Limited, and others at Coleman during recent years. He is survived by a young wife and child, his parents and several brothers and a sister, Mrs. Purvis, residing at Coleman.

The cause of the explosion has not yet been determined. Fire having broken out in the lower pits, it has become necessary to flood that section of the mine, so that rescue work has been suspended for several days or until the mine can again be pumped out.

Rescue parties were on the scene in very short time and operations were undertaken under the direction of Mr. George Kellock, the general manager of the coal company; Mr. Moses Johnson, district mines inspector, and Mr. Ed. Royle, superintendent of Mine Rescue Care No. 1. Mine rescue teams from Blairmore and Coleman responded.

The explosion occurred just as the night shift of around thirty men were about to come out. Had the accident happened during the day shift, in all probability several hundred men would have been killed.

David Davidson, the superintendent, had but just returned from a several months' visit to his old home in Scotland and had just resumed his duties. Accompanying rescue parties on Tuesday, he came very near collapsing from the effects of gas and smoke.

Samuel Patterson, fourth son of Mr. and Mrs. James Patterson here, was one of the party that made successful climb to the surface immediately following the explosion. Sam is one of the most experienced miners in the district and was in the Bellevue mine in 1910, when thirty-seven of his fellow workmen were killed under very similar circumstances.

This is the second mine tragedy to happen in this district within the past three months, the other occurring at Hillcrest on September the 19th, when two men were killed.

The McGillivray mine was considered one of the safest in the Alberta mining field to operate and was equipped with the very best of air-providing apparatus.

A Calgary jury found Fred Barratt not guilty of forgery, but guilty of passing counterfeit money, for which he has to serve six months.

SECOND ANNUAL BANQUET OF BELLEVUE F. & G. P. ASS'N

The second annual banquet of the Bellevue Fish & Game Protective Association, held at the Bellevue Inn on the night of Wednesday, November 17th, was presided over by the president of the association, Mr. John Kerr, of Pasenburg, and was indeed a banquet occasion.

Likewise of sixty members with their wives or sweethearts occupied positions at the tables, which were beautifully laden with good things—so good that everyone were caused to compliment the genial proprietor and his wife, Mr. and Mrs. Jack Giola, upon the splendid banquet provided and the excellent service of their staff of waitresses. The banquet was the best ever served in the district.

Following the banquet, a program of speeches, songs, music, etc., was rendered. The principal items included songs by Miss Gertrude Boswell, Mr. J. R. Smith, Mr. Fred Utley, Mr. E. C. Cossetick and Mr. Arthur Watson, and selections on the violin by Mr. William Kerr. Miss Emmerson and Mrs. Tunks acted as piano accompanists.

The toast list included the following:

"The King," proposed by the chairman.
"Canada," proposed by Rev. Father Donovan.

"The Bellevue Fish and Game Protective Association," proposed by the chairman.

"The Ladies," proposed by Rev. J. W. Oliver.

"Our Guests," proposed by Mr. C. Emmerson, following which Mr. Emmerson presented prizes as follows:

First prize for the heaviest bull trout for the season, to Mr. Pete Gianino, two reels, donated by Mr. Barbour.

First prize for the heaviest speckled trout for the season, to Mr. Vaughn, of Blairmore, two framed pictures.

Baskets were awarded to Mr. James Corner for the heaviest bull and speckled trout, and a rod to Mr. H. Riva for the heaviest grayling.

A special prize, donated by the president, was awarded to Mr. A.

ANDERSON—JORDAN

The marriage of Mr. Howard Dan- can Anderson to Miss Nancy, daughter of Mr. and Mrs. George Jordan, took place at the Bellevue United church last evening at 7 o'clock. The ceremony was performed by the Rev. J. W. Oliver in the presence of a host of friends of the contracting parties. Following the ceremony, a reception was held.

The young couple will take up residence in Bellevue.

The greatest toboggan slide in the world, over an incline of sixteen miles, is under construction at Banff.

Martell for a heavy bull trout.

In his opening remarks, the president referred to the work that had already been accomplished by the association and he hoped that much more would result from the good influence of the association in the future. All speeches were brief and to the point.

In the annual report of branch of the department of agriculture for destruction of magpies, a total of 44,769 magpies' eggs were destroyed, 65,723 crows' and magpies' feet were brought in, and 206,811 gophers were destroyed.

WHAT DID YOU GIVE LAST CHRISTMAS?

Toys for the kiddies—most of them broken by now. "Something useful" for the grown-ups—now worn out or forgotten. Cash to your employees—appreciated but soon spent. Other presents—hurriedly bought and perhaps ill-chosen. Are they remembered now?

Suppose this year you give them each a Bank Book containing an initial deposit, and urge them to add to it regularly. Could anything be more suitable?

Montreal Man Wins Way Back To Health

Suffered for Months After Severe Attack of La Grippe, With Insomnia, Nervousness, Indigestion And Coughing. Found Relief.

Like thousands of others, Ernest Deland, proprietor of Deland Barber Shop, 194 Laurier West, Montreal, found long-sought relief from intense suffering in Tanlac.

Mr. Deland says: "At the end of a two-months' siege of La Grippe, I was so completely wrecked that my friends saw myself thought I would never get well. For weeks I could not sleep.

"Pains in my lungs, shortness of breath, choking sensations and a nagging, wracking cough, made life so much unbearable. Finally I was persuaded by a man who was benefited by Tanlac to try it out.

"I was able to get up and move about the house after taking two bottles of Tanlac, and the third I had finished the seventh bottle I was able to return to work.

"I have an excellent appetite, sleep well, and have gained 11 pounds, I feel fine in every way. It is with pleasure that I recommend Tanlac to anyone.

Tanlac is for sale by all good druggists—more than 40 million bottles have been sold. Let this marvelous tonic, made according to the latest Tanlac formula, from roots, barks and herbs, help bring you robust health and vigor, as it has to thousands of others. Ask for it by name.

CHAPTER XX.
In Eggleston's Home

A butler, the incident one whose years seemed to identify him with the old house, brought word that Mr. Eggleston would join them shortly. If they would be pleased to wait. Brandon, when the old man had disappeared noiselessly, held out his cigarette case to Joanna. She shook her head.

"No, not in here," she said. "Somehow, it doesn't seem as if I am one smoked in this house, does it?"

"That is a curious feeling," he observed. "I don't imagine my accustomed smoke makes them, but I fancy he is not unused to them. Surely you would not adopt a pose of innocence of them because of a visionary regard for your banker's tastes?"

"No," she replied. "I wouldn't do that. But, just the same, I don't want to smoke."

She moved away from the table and to a window. Brandon, eying her closely, saw that as she crossed the room her glance fell again on the painting over the fireplace. She looked at the window out into the avenue, for a minute or two, then turned suddenly and went directly up to the fireplace. The action was as if in response to some occult summons from the girl who looked down so gracefully from the picture.

Joanna rested her hand on the mantel ledge and gazed up into the face in the portrait. It was a picture that might have amused her, with its grim, voluminous skirts from under which just a foot or so peeped; its legs of matter, sleeves and shapely feet, waist that almost shrieked aloud of the corsets of yesterday. The sign of virgin modesties was there; in the

hands that would have been usefully clasped if he had not held the old weapon of defense—an ornate folded fan. All this Joanna sometimes would have laughed at, as at a school-day vaudeville. To her, there could have been anything quite so ridiculous as to see a young man in a suit of fashion that had become passe-clothes, girls or conventions.

Joanna saw that he had dropped his cigarette into a solid gold ash tray and moved softly to one side of the room where, under pretense of examining a book, he might furtively watch the girl at the fireplace, awestruck of something in her face. Instead he fancied that some of the witfulness of the girl in the painting had reached down to the other.

"Do you know who she is?—I mean, who she was?" The voice seemed to float gently on the stillness of the room.

Brandon didn't answer at once. Joanna did not notice his silence. "She fascinates me," she said, still dreamily. "There is something about her face that reminds me of someone—I don't know who. It makes me want to think."

There was a sound at the door, which opened by the old butler. Eggleston entered the room. Brandon made no sign. He glanced from the girl to the banker, and then watched them both.

Eggleston halted abruptly when he saw Joanna and that she was lost in contemplation of the girl in the painting. He looked at Brandon, a mute inquiry in his eyes. Brandon shook his head. Eggleston stood, quietly, his head lowered a bit so that his study of the girl at the fireplace, whose back was partly turned to him, had the effect of an inner as well as outward scrutiny.

Suddenly, as if she were startled, Joanna wheeled and met the banker's stare. A hand fluttered nervously to her breast. For a brief moment she trembled, as if frightened. "I know—that you were watching me!" she breathed.

Brandon dropped his book. "The atmosphere is charged," he remarked dryly. "I am confronted with moods. Miss Manners refuses to smoke despite the fact that on our way here she stopped to buy a charmingly expensive holder ornamented

with America. She found it too too forbidding. Now my uncle is mysteriously deceased. To Eggleston, by continued: "I hope your function is not to be a heavy staff!" Joanna was confused. She wanted to refute that accusation that it was the house of her host that oppressed her.

Eggleston reacted her with a stiff, formal greeting that ignored Brandon's allusions.

Joanna made a valiant effort to throw off the shyness that constantly threatened her in the presence of the great banker who knew the secret of her mystery. She knew, instinctively, that she had not been asked to visit him, at his home, without some very definite reason. But whatever this reason might be, she was convinced that it, also, would be kept from her. Eggleston's phrases were formal; cold; yet, now and then, she was sure she detected something in his manner—that was quite all that she could determine about it, that it was simply, "something." As yet the mind of Miss Twentysix had not become expertly analytical.

"I understand," the banker said, when they had taken their places at the table in a massive dining room—a room as comely as the library which throned the girl of the painting—"that you were definitely launched last night, and that you were quite a success. That is what my nephew, here, has given me to understand."

"It was glorious!" Joanna agreed. "Miss Coulton is very good to me."

"You have not, then, formed any substantial ambitions. You are the trustee of a fortune. I am interested in your immediate future."

Joanna looked up quickly. "I should be willing to follow any instruction you give me," she said quietly. "If you give me none, I can do nothing else but enjoy myself according to my own inclinations. I have always wanted little things that couldn't have. Now that I may have the big ones that are better, I shall simply have them—that's all I can do, it seems."

"As your banker," Eggleston returned, "I am wondering if, since that is your inclination, some of your securities should not be turned into cash. Already you have expended some \$130,000. That is within a few days. If you continue at that rate you will need actual money. You must give me my instructions."

Joanna saw that Brandon was watching her furtively. She felt the need of a defense, but, instead, plunged into an offensive.

"I am going to spend a great deal of money," she said. "There are so many things to buy, and money doesn't seem to count for much in Miss Coulton's world." So was silent for a moment, then asked suddenly:

"How far does a million dollars go, Mr. Eggleston?"

"A very very far," he replied, "when entrusted to the three companions, Vanity, Extravagance, and Desire. They, I believe are the chief advisers of the young women of this day."

"Are they?" Joanna asked earnestly. "I have always found that my chief friends were Misunderstanding, Distrust and Envy."

A great modern banker, a despot whose whim echoed as thunder through the marts of finance, and a modern, younger man, whose pastime was the baffling of feminine artifice, looked across their table into the fresh, young, modern face of a girl who was just blossoming out from Miss Twenty-seven of the silks.

The banker remembered, strangely, a vision of glaring legs and manly rump that came awkwardly through his office door with the air of one who was being trapped. Brandon remembered the girl who had "no place to go," except for her silk counter or her rooming house. And Joanna understood why they looked at her.

One Thousand More British Settlers to Come to Canada Next Year

One thousand more British families are to be brought to Canada next year to settle on farms and Hon. Robert Forke is now engaged in the task of securing suitable land that is not too far from a railway. The newcomers will take up land in all parts of the Dominion, but mostly in Ontario and the West, where the majority of the 2,000 families already brought out to the Dominion are making good and contented.

The Hudson's Bay Company has placed 2,000 quarter sections at the disposal of the Minister of Immigration, and the C.P.R. likewise has offered him 1,500 quarter sections. The minister will have an investigation made by the land settlement board to ascertain the value and suitability of these lands for British families.

IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments, come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels, sweeten the stomach, banish constipation and indigestion; break up colds and simple fevers—in fact they relieve all the minor ills of little ones. Concerning them Mrs. Mollie Cadotte, Matamoras, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health. The Tablets are sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Little Helps For This Week

He that hath no rule over his own spirit is like a city that is broken down and without walls.—Prov. xxv. 28.

Real glory Springs from the quiet conquest of ourselves.

And without that the conqueror is nothing.

Rest not in an ovation, but in a triumph over thy passions. Let anger walk hanging down the head; let malice go manacled and envy fettered after thee. Behold within thee the whole train of thy trophies, not without thee. Chase up the murky legion of thy breast, lead thine own captivity captive, and be Caesar within thyself.

Sir Thomas Browne.

To Protect Travellers

Machine Guns Mounted on Trains in Mexico

Machine guns are mounted on trains leaving the international boundary between Arizona and Mexico, to protect travellers from the depredations of rebellious factions in interior Mexico.

Military escorts on the trains have been doubled from 50 to 100 men on each train. The machine guns are set in place at both ends of the carrier.

These precautions, say military chiefs at Nogales, Sonora, are taken because of the activity of Yaqui Indian bands in Sonora.

Teaming With Life

The amount of life found to exist in a quarter of a square mile of tropical jungle in British Guiana is almost incredible. In a square yard of soil there are found forms of insect life were found.

Won Fortune From Kaiser

Widow Broke Will Which Left Wealth to German Ruler

During the war the ex-Kaiser of Germany just missed adding another million to his fortune by an adverse decision of the Dresden High Court. A wealthy Saxon died and left the greater part of his wealth to Wilhelm II., the will leaving his widow almost penniless.

The widow asked the ex-Kaiser to renounce the legacy in her favor, and on his refusal, she brought an action to have the will declared illegal. The court decided in her favor, and awarded her the big sum her husband had willed to the ex-Kaiser.

THIS MOTHER GLAD DAUGHTER IS WELL

Mrs. Parks Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health

Toronto, Ontario. — "My daughter is 16 now and has been an invalid ever since she was six of age. She has been so weak and has been so much of a burden to me. I have tried different kinds of medicine, but none helped her much. I had taken Lydia E. Pinkham's Vegetable Compound when I was run-down, and it had helped me so much that I thought it might help her at this time. She has gained ever since she began taking it. She attends school every day now and goes skating, and does other out-of-door sports. I recommend this medicine to any one who is run-down and nervous and weak." — Mrs. PARKS, 106 Bond Street, Toronto, Ontario.

ON U.S. ANNEXATION

WITH CANADA

An editorial in a recent issue of a California daily remarks:

"MacKenzie King, Canadian premier, says truly that all talk of Canadian annexation by the United States is foolish. It's as foolish as to talk about Canada annexing this country. But Canada and the United States, ruling and owning these northern lands, should be closely united in business as well as close friends."

"Americans would welcome a working arrangement by which the free trade between our forty-eight states could be extended to include Canada. This would give Canada the advantage of quantity production in the United States, which she cannot get for herself for a long time to come."

"First of all would come uniformity in tariff. There is no difficulty that could not be arranged to the advantage of both countries."

"In this country there is no more desire to own Canada than there is in Canada to own the United States. It is an excellent thing for us to have so able a pacemaker on the north."

"Are mine the only lips you have ever kissed?"

"Yes, darling, and the nicest."

Sunshine every other day, on an average, throughout last year, is the record of five Western Canadian cities. They each enjoyed 182 days of unbroken sunlight.

Kamloops, B.C., was the Dominion's sunniest city. Its residents enjoyed 201 sunny days, or an aggregate of 2419 hours of sunshine. Qu'Appelle, Sask., was second, Old Sol giving his benediction for 191 days, or 2374 hours. Calgary and Edmonton, in Alberta, and Victoria, B.C., shared third place with 173 days, or 2100 hours.

The survey gives Qu'Appelle the sunshine prize for the last thirty years, for the city has had an average of 198 sunny days a year, or an annual total of 2374 hours. Winnipeg was second with an average of 179.5 days per year over the thirty-year period, and Edmonton, with 173 days, or 2081 hours, third.

These long hours of sunshine have helped to ripen the prairie wheat which Western Canada now grows to the extent of 300,000,000 bushels a year.—The Canadian Gazette.

BOOST AND THEN BOOST SOME MORE!

BOOST, and the world boosts with you;

Knock, and you're on the shelf. For the world gets sick of the one who'll kick.

And wishes he'd kick himself.

BOOST when the sun is shining, BOOST when it starts to rain; If you happen to fall, don't lie there and bawl, But get up and BOOST again.

BOOST for your own advancement; BOOST for the things sublime; For the chap that's found on the topmost

Is a BOOSTER every time.

(FIRST DIVISION)
Canadian Legion B.E.S.L. Essay Competition, 1938

When the news that Great Britain was at war was flashed around the Empire, offers were eagerly made by the overseas Dominion. A wave of loyalty swept Canada from ocean to ocean. Not for the love of battle, not for the love of conquest, but for the greed of possessions, but for the cause of honour, to maintain solemn pledges, and to uphold the principle of liberty the Canadians entered the war.

Under the command of Generals Alderson and Byng, and also Sir Arthur Currie, Canada's heroes won countless honours. In the trenches of Flanders and France the Canadians won undying glory for themselves and for the Dominion.

At the battles of Festubert and Givenchy, St. Eloi and Sanctuary Wood, as well as Somme, Vimy Ridge and Amiens, great heroism was shown by Canadians. However, the greatest courage of Canada's men was tried at the battle of Ypres, a German attempt to break through and capture Calais and other channel ports. Here great calmness and endurance was shown by Canadians who were the first victims of the new deadly poison chlorine gas. Ypres is a word that carries its suggestion of deathless heroism, its sad symbolism of sacrifice, and its glorious tradition of victory to all corners of the earth.

The people of Canada gladly made sacrifices to support her brave men, who had gone overseas to fight their battles. Five times the government appealed to the people in national loans and as often met with a generous response. In all, the people loaned to the government \$660,000,000. The people willingly submitted to war taxes on railway and amusement tickets, telegrams, money orders, cheques and letters. Factories were given over to the manufacture of shells and other ammunition. The Canadian Red Cross Society gave aid to the sick and wounded soldiers. The Y.M.C.A. through its military branch carried on canteen work among the Canadian troops in both England and France.

Canada is justly proud of her heroes. On the walls of churches, schools and other public buildings hang honours and tablets which tell of the men who gave their all for Canada.

For centuries to come the memory of her heroic sons shall linger in the hearts of men and women as an inspiration to peace.

Arthur Brisbane writes in a U.S. paper: In her first message to Americans on American soil, Queen Marie says "I'm just a woman of fifty, who is brimful of joy and excited pleasure at the thought of seeing you." American ladies that are fifty and trying to look fifteen, please take notice. It is better to be a natural, joyful woman at fifty than a poor painted lady with your face lifted, paraffin under your skin, rouge on your lips, flesh-colored silk stockings showing your knees with no object in the world but to look young, which you can't do.

A. F. McRAE MURDERED

AT VICTORIA

Mrs. Margaret McRae, the Victoria woman who shot and instantly killed her husband, A. F. McRae, a great war veteran, on November 17th, before her marriage was a resident of the city of Lethbridge, according to information now at hand by the Herald. She was then Maggie Dadds, well known to old timers of the city. Her father worked at the mines for many years. It is understood she was twice married, first to Fred "Posey" Barnes, a son of Mr. and Mrs. Barnes of the old Barnes mine, and later to A. F. McRae, a blacksmith, of Blairmore. She had lived with McRae for 23 years, except for the period of his army service and for the four days prior to the killing, when the husband lived alone in an apartment while a separation agreement was drafted.—Lethbridge Herald.

Mrs. McRae was arrested immediately following the shooting and is now awaiting trial on the charge of murder. She was a step-daughter of the late A. B. Dodd, of Hillcrest. Mr. and Mrs. McRae resided here for some years and occupied a house in South Blairmore.

BECOMES MANAGER OF B. C. FLOWER GROWERS LIMITED

While the departure of J. E. Terrill for the coast has been recorded in the press the plans of the former local floral merchant have not yet been disclosed. Advice from the coast now reveal that Mr. Terrill is manager of the British Columbia Flower Growers Limited, an association of greenhouse men on the mainland who retail their product largely in Vancouver city. The association is one of the largest wholesale distributing concerns in the Canadian flower trade and under Mr. Terrill's management purposes pushing their business eastward into Alberta.

As reported earlier in the week, the Terrill Floral company has been taken over by a group of Lethbridge men. The business will be continued along the lines established by Mr. Terrill in his long, successful business career in the city. Mr. Reed, who has been with the company for sixteen years, will continue as manager of the North Side greenhouses. He is also a director of the new company. The downtown store will be continued.—Lethbridge Herald.

THE PASS FIFTEEN YEARS AGO

(Blairmore Enterprise, 1911)

Nov. 10.—Charles Hewitt and Arthur Shearer have returned from a hunting trip north of Lille with a goodly supply of venison.

Shortly after Thomas Hill's little boy met with a painful accident on Wednesday last by coming into contact with some explosives, a quantity of dynamite was discovered concealed under the house occupied by Isaac Ray and family. No blame can be attached to the parents of the boy, as the dynamite was not on their premises.

A large crowd of Blairmore and Coleman young folk took advantage of the splendid sheet of ice on the river near McLaren's Mill on Monday night and thoroughly enjoyed themselves.

The Frank Gun Club has issued a challenge to the Blairmore club for a shoot on Wednesday of this week, the losers to provide a turkey supper.

A successful entertainment was staged by Western Star Lodge No. 311, Sons of England, at Cowley on Thursday night. A play, entitled "Wanted, a Confidential Clerk," was staged, the principal characters being A. Baines, George Baker, R. Young, W. J. Middleton and T. Cooknell. The Cowley orchestra, consisting of Messrs. Orchard, Hannan and Mills, was in attendance. Miss McMillan assisted at the piano.

Steve Humble has sunk a well and found an ample supply of good water at Bellevue at a depth of fourteen feet.

F. S. Lorraine, advance agent for the "Madame Sherry" show, was in town on Monday.

November 17.—The arrival of Clem Stubbs, vice-president of District 18 of the U.M.W. of A., with the news that the strike had been settled by the Frank conference, occasioned much comment and now everybody is wearing a broader smile.

Charles Branch, of Kingsgate, B. C., has leased the Imperial hotel at Frank and took charge last week.

Mrs. J. M. Easterbrook, of Cowley, has received word of the death of her father, Mr. J. W. Moulton, at Boston.

The large general store of Burnett & Lang at Bellevue was completely destroyed by fire at an early hour on Sunday morning last.

W. Simpson has resigned the position as master mechanic with the Canadian Coal Consolidated at Frank and is contemplating a trip to England.

ST. ANNE'S CHURCH BAZAAR
A SUCCESSFUL AFFAIR

The annual bazaar, in aid of St. Anne's Catholic church, took place in the Lodge Hall last evening and was the most successful event of the season. During the afternoon the various stalls were liberally patronized and practically every item was disposed of.

At 8 o'clock, about forty couples sat at whist. The successful players were: Ladies' first, Mrs. C. H. Ericson, with a score of 152; second, Mrs. Wheatecroft, on a draw with Mrs. Hughes; consolation, Miss O. McLaren, on a draw with Miss Picard. Gents' first, Mr. Roche Oliver, with a score of 152; second, Mr. M. H. Congdon, with a score of 150; consolation, Mr. Harry Burns.

Following supper, the draw for the tombola prizes was made by Mr. Harry Burns, assisted by Rev. Father Harrington and Mr. A. J. Kelly. The result was as follows:

1st—Linen dresser scarf in Mont Mellick work, donated by Mrs. T. H. Steadman, of Macleod. Won by Master Norman Picard, of Blairmore.

2nd—\$10 gold piece, donated by Mrs. R. Green. Won by Rev. Father Neil McCormick, of Coleman.

3rd—Three-piece linen buffet set in cut work, donated by Mrs. L. L. Morgan, and put up again. Winner, Mr. Edmund Picard, of Blairmore.

4th—Two French-embroidered towels, donated by Mrs. G. A. Vissac. Won by Master Roland Maniquet, of Blairmore.

5th—Large linen centrepiece in colors, donated by Mrs. J. Chaput. Won by Mr. J. Manchuk, of Blairmore.

6th—Turkey, donated by P. Burns & Co., Limited. Won by Mrs. B. Aechbacher, of Blairmore.

7th—\$5 gold piece, donated by Mr. Edmund Picard. Won by Mrs. W. G. Pearson.

The beautiful cake, the work of and donated by Mrs. Pinkney, senior, was won by Mrs. J. Hughes.

Dancing was then indulged in until 1 a.m.

Queer

Call a girl a chick and she smiles; call her a hen and she howls. Call a young woman a witch and she is pleased; call an old woman a witch and she is indignant. Call a girl a kitten and she rather likes it; call a woman a cat and she hates you. Women are queer.

If you call a man a gay dog, it will flatter him; call him a pup, a hound, or a cur, and he will try to alter the map of your face. He doesn't mind being called a bull or a bear, yet he will object to being mentioned as a calf or a cub. Men are queer, too. —The Sunset.

Accommodating

Mrs. New had called at the grocery store to register a complaint. "I ordered a dozen oranges from you today," she said sharply, "and you sent me only eleven. How was that?"

"Well, ma'am," explained the grocer, "one of them was so bad that I took the liberty of throwing it away for you."

Philadelphia—The silver cup for the best display of poultry at the Sesquiennial Poultry Show was won by the Hon. John S. Martin, Ontario Minister of Agriculture.

A newly constructed line of the Canadian Pacific Railway between Unwin and Lloydminster in the Province of Saskatchewan is now in operation. This line 30.5 miles in length will greatly assist the farmers of the district in marketing their grain.

Ripe plums are now being sent to England, arriving there in prime condition. The Ontario Department of Agriculture reports having made a trial shipment with excellent results, as attested by word from the other side. The plums were picked ripe and fully colored.

Vancouver—The largest shipment of tree seeds ever made within the British Empire was that of 3,200 lbs. of yellow pine seed sent from New Westminster to New Zealand by the Dominion Government seed extraction plant at the former place. A further cargo of 2,500 lbs. of seed is to follow shortly. This seed will be planted on waste lands in New Zealand.

Quebec—The Canadian Pacific Railway has decided to add three hundred rooms to its famous hotel, the Chateau Frontenac, and to meet the requirements has taken options on a number of properties near the present buildings. Through the construction of the proposed new wing the Chateau Frontenac will probably become the largest hotel in the British Empire, having some 1,200 rooms.

Christmas travel from Canada to the Old Country is expected to be exceedingly heavy this year over the C.P.R. lines and by the Canadian Pacific liners. High wheat prices and good crops are given as the causes for this exodus. The rush will be inaugurated virtually by the sailing of the C.P.R. liner Montreal on December 7, for which a special train will be run to ship side at Saint John.

Recognized throughout the West as two of the outstanding authorities on mountain transportation, James and William A. Brewster, president and general manager respectively of the Brewster Transportation Company, visited Canadian Pacific headquarters in Montreal and in interview for the press predicted great popularity for Banff, Lake Louise and other points in the Rockies. Americans, they stated, were regarding these centres as some of the outstanding holiday resorts in existence.

A British Columbia hen, a white Leghorn, has taken the world record in egg-laying with a total of 348 eggs given in 360 days. The hen was entered by the University of British Columbia in the Dominion Experimental Farm contest extending from November 1st last year, to the same date this year. Previous egg-laying records were held by New Zealand (342 eggs in 1 year), in 1923 and by Austria (347 eggs) in 1924. Last year the honor of establishing a record for this continent went to a hen in Puyallup, Washington, with 335 eggs laid in the year.

Moral: Don't Sleep at Church

A certain lady induced her husband, who was not a regular church-goer, to accompany her to evening service. During the sermon he fell asleep, snoring at first softly, and at length so noisily that the good lady was constrained to give him a sharp nudge, in the hope of rousing him. To her consternation, however, as she slowly awakened, he exclaimed in a loud tone, "Let me alone! Get up and light the fire yourself; it's your turn!"—Presbyterian Witness.

Taxation In Canada

During the war Canada, like all countries, was forced to devise and impose new forms of taxation in order to raise the large sums of money required to enable the Dominion to worthily, efficiently and successfully discharge its national obligations. That titanic struggle lasted so long, and the expenditures incurred were so great, that a huge national debt resulted, and since the Armistice interest on that debt has had to be paid, while large expenditures for pensions and the care of disabled soldiers continue to be necessary, Canada, therefore, must raise a large revenue for Federal purposes.

But this is not all. The war caused inflation of prices in all commodities, and, of course, revenues which formerly were adequate for provincial and municipal purposes were too small, and on top of higher Dominion taxation there had to be imposed greater taxation by Provincial and municipal governments.

The effect of this taxation is greater in Canada than in the United States because this country entered the war at the beginning, whereas the United States only came into it near the close, and after years during which, that country amassed great wealth in the work of supplying goods to the Allied countries which, had turned their whole industrial fabric from works of peace production to the requirements of war.

Prior to the war Canada was a low taxed country, but war needs brought about the imposition of an Income Tax, a tax on bank cheques, drafts, notes, etc., a tax on receipts, taxes on matches and other commodities, an increased rate of postage, taxes on excess profits, taxes on business turnover as represented by sales, and sundry other taxes. The accumulation of all these taxes, naturally and inevitably, had an adverse effect on investment in industry and for development purposes, and in the willingness of both foreign and domestic money lenders to invest in Canada. Further, the necessity of investing huge sums in Government loans during the war resulted in the withdrawal of hundreds of millions of dollars from other forms of investment, to the detriment of all business, industrial growth, and development of the natural resources of the country.

With its tremendous accumulation of wealth during the war, and the wonderful expansion in production and industrial activity since then as a direct result of that accumulation of wealth, the United States has been enabled to rapidly decrease its Income Tax and lower, or entirely abrogate most of its war taxes. This has created a great disparity in the burden of Federal taxes imposed on the people of these two countries, to the manifest disadvantage of Canada. On the other hand, Canada compares very favorably with the United States when Provincial State and Municipal taxation is compared.

There is, however, a growing demand throughout the Dominion that, if this country is not to seriously suffer in the long run, some action must be taken to lower the burden of Federal taxation so as to place the Dominion on terms of greater equality in this respect with our neighbor to the south. Just how this is to be accomplished, and at the same time provide the Federal Government with the revenue it must have, to meet our war obligations and current domestic needs, is the problem.

To the solution of this problem the Dominion Government is directing its attention, and, fortunately, the people as a whole, are taking a very keen and increasing interest in it. This interest is made manifest in the discussions which took place at the recent convention of the Canadian Board of Trade, in the publications of the Citizens' Research Institute of Canada, in the Dominion wide campaign recently inaugurated by the Retail Trade Bureau of Canada, and by the resolutions adopted by the Canadian Council of Agriculture representing the organized farmers.

With all these bodies are in agreement on some points, they are at variance in important respects as to policies which should be adopted. All strongly favor more economical administration, the elimination of parsimony and politics from the business of government, reduced expenditures, and a more careful survey of national conditions before embarking on future capital outlays, all of which will make for lower taxation. But they differ when it comes to the question of just what taxes should now be entirely eliminated. There are two sides to these questions, as there are to most issues of outstanding importance, and it will be of value to consider them in a subsequent article.

The present grating fact is that a step has been taken in the direction desired by all, namely, reduction of taxation. The present year has seen the excess war postage rates wiped out, the tax on receipts repealed, the tax on bank cheques for small amounts removed, and a substantial reduction made in the Income Tax, especially on smaller incomes. Furthermore, the Finance Minister has announced that further reductions will be shortly forthcoming, and press dispatches have reported that he has ordered a survey by departmental officials of the operation of the Income Tax and Sales Tax, and their effect on business and the country's development in general, with a view to guiding the Government in the preparation of the next budget.

Modern Sea Mysteries

Sailors Encounter Many Tragedies Which Cannot be Explained

In spite of the advance of science along the lines of steam, electricity, wireless communication, ship construction and a hundred other things, mysteries of the ocean still continue. Tragedies, gales and inexplicable still keep obscuring themselves, and the science of man seems impotent when pitted against the vast, weird, night and uncertainty of the sea.

One of the latest mysteries is that surrounding a schooner, the "Mary Cornish." Fate of her crew is unknown.

She was picked up by an American steamer in the mid-Pacific, drifting before the trade wind with her sails loosely stowed. The schooner was in trim, and apparently had not encountered any dirty weather; on deck, and below, all was in order; and the trade-room and liquor cases had not been disturbed. In the deck house, where a swing-lamp was still burning, lay a copy of the "Star" Mail, many months old, slightly churched and with blot stains on it; and there, too, a parrot, dead in its cage. None of her boats were missing. But not a living thing was to be found in her. The doom of her crew is another unsolved mystery of the sea.

NEGLECTED ANAEMIA

Often Leads to a Decline—Enrich the Blood by Taking Dr. Williams' Pink Pills

In their early teens it is quite common for girls to outgrow their strength, and mothers should carefully watch the health of their daughters at this time, for it is when strength is sapped by rapid growth that anaemia develops. The signs may be noticed by peevishness, lagging and headaches. The face grows pale, breathlessness and palpitation follow, with low spirits.

At the first symptom of anaemia mothers should act at once. Neglected anaemia often leads to decline, but if you see that your daughter's blood is enriched there need be no cause for anxiety. The finest blood enricher ever discovered is Dr. Williams' Pink Pills. The pure red blood which these pills will quickly banish all signs of anaemia. They will build up your girl's health and give her a robust girlhood. Give your daughter a course of Dr. Williams' Pink Pills now.

Make strong like those of girls who have been rescued from the clutches of anaemia by Dr. Williams' Pink Pills. Here is a bit of proof. Miss Mary Verrill, Catawba, N.B., says: "Three years ago while attending a convent, I studied very hard to graduate. The result was I became very nervous and got so thin and pale my teachers thought they would have to send me home. I took different kinds of medicine which my parents sent me, but my condition remained unchanged. At last one of my teachers gave me a box of Dr. Williams' Pink Pills, and I had hardly finished it when I could feel an improvement in my condition. I continued the use of the pills for some time longer, and I can tell you all the good they did me. I gained in strength and weight, and the color returned to my cheeks, and at the end of the term I graduated. I never fail to recommend Dr. Williams' Pink Pills to my friends, and acquaintances when a tonic is needed."

You can get these pills from your druggist, or by mail for 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Electric Ocean Liners

Electric Propulsion Is Coming According to Authority on Marine Matters

Ocean liners, propelled by powerful electric engines that will permit control as positive as that of automobiles, were predicted by W. T. Swan, noted authority on marine electric propulsion, in addressing the convention of the Society of Naval Architects and Marine Engineers in New York.

Electric propulsion, he said, will eliminate the necessity of engine room signals and place absolute control of the vessel on the ship's bridge, resulting in a reduction of operating expenses and increased safety.

Salvage Work Progressing

Sixty-three of German Vessels Raised at Scapa Flow

Salvage work on the scuttled German fleet at Scapa Flow, progresses steadily. Messrs. Cox and Danks lifted the G40 recently bringing the number of destroyers raised to sixteen. Sixty-three vessels have been raised by them so far.

There are only three more destroyers of this type, weighing 750 tons, to be salvaged. The remaining seven destroyers weigh 1,200 tons.

cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. Spiritualism In Britain

Growth of Movement Sponsored by Sir Arthur Conan Doyle

An impressive belief in spiritualism was registered at the spiritualist's annual armistice service in Albert Hall, London, when eight thousand were present.

Sir Arthur Conan Doyle, leading the services, ardently appealed to his hearers, shouting: "I ask all who are sure that they have been in touch with their dead to rise and testify."

More than 3,000 men and women of all types quietly rose and this brought from Sir Arthur this fervent statement:

"Thank God there are so many. I prophesy within five years that to such an appeal every man and woman will rise."

We are not testifying to faith but to fact.

The growth of the belief in spirit communication, so persistently expounded by Sir Oliver Lodge and Sir Arthur Conan Doyle, has apparently been extraordinary.

In the course of his address Sir Conan said: "We say here in mid-London and in cold blood, and pledge our honor that this is true. We feel we are addressing those who have lost, and hold out our hands to them, not as shadowy beings in an unknown life, but just the same light hearted, merry fellows we lost. They are not lost, but are nearer to us than ever they were before."

At Bristol Stood, formerly officer of the Review of Reviews, the Rev. George Vale Owen and other well-known spiritualists were among the speakers.

May Continue Burbank's Work

California Trying to Raise Funds to Buy Purchase of Van Nuys Farm

Plant experiment work of the late Luther Burbank will be carried on if a movement on foot in California to raise \$1,000,000 is successful. The fund would purchase the famous scientist's Sebastopol farm, north of Santa Rosa, and make it a monument to his memory. Officers of Stanford University admit that the plan is to turn over the farm to the university. Shortly before his death Burbank expressed a wish that the farm be turned over to Stanford University so that his experiments could be carried on.

Not Such a Bad Thing

Many of Really Great People Have Been Misunderstood

The whine of the world is: "I am misunderstood." Pooh-pooh! Everybody is. It's a good thing that many of us are misunderstood. Thus we pass for knowing more than we are. Emerson had something to say about this. He said: "Misunderstood! It is a fool's word. Is it so bad, then, to be misunderstood? Pythagoras was misunderstood, and Socrates, and Jesus, and Luther, and Copernicus, and Galileo, and Newton, and every pure and wise spirit that ever took flesh. To be great is to be misunderstood."

Not Tired With Favor

France at Least Will Oppose Restoration of Territory to Germany

It is unlikely that Germany will find any enthusiastic response when she gets ready to ask formally for the restoration of her territory. She was deprived of her colonies in order to reduce her resources for engaging in another world conflict. If other statesmen forget this fact, certainly those of France never will. And while Germany has a strong argument on the economic phase of the question, not until the problem of permanent world peace is appreciably nearer solution than it now appears will France ever be likely to approve any course that would enhance the potential military strength of her neighbor across the Rhine.

Cause and Effect

English girls with a good pair of legs are quite unusual according to Sir William Arbuthnot Lane, noted British physician, but the answer of several persons well qualified to speak is a decided "English girls' legs are not ugly." "So many English girls nowadays are bow-legged or knock-kneed," Sir William says, attributing these physical defects to bad feeding in youth.

Potatoes Sprout Early

Potatoes have been harnessed to overcome work by the demands of science. Usually potatoes taken from the ground in late August or September before sprouting. That idea is all bunk, according to Prof. Frank Denby who says that dousing them in a certain chemical bath will start the shoots at once, cutting down the time between crops.

Confidence is seldom lost, but it is often sadly misplaced.

Were Stupid As Boys

Many Great Men Were Not Brilliant at School

Because a boy may be adjudged stupid at school, it does not follow that he may not become a successful man.

"You care for nothing but ratcheting, dogs, and shooting, and you will be a disgrace to yourself and your family." Mr. Darwin chastised his son, Charles, with these words, and there seems little doubt that the boy merited the rebuke. Yet years afterwards the name of Charles Darwin was world-famous.

"A stupid, heavy blockhead." Other Goldsmith's old schoolmaster, who looked upon the famous writer as one of the biggest dunces he had ever had to teach, thus denounced his pupil. Yet Goldsmith wrote the poem "The Deserted Village," the novel "The Vicar of Wakefield" and the comedy "She Stoops to Conquer," and his name will be revered wherever English literature is found.

Edison, the electrical wizard, was sent home from school by his teacher, who asked the lad's mother to keep him away as his brain was "addled." Mothers need never despair if their sons and daughters do not show great brilliance at school. The men and women who have made names for themselves in business, art, science, and even politics, were amongst the staid scholars, whose hard work and persistent application gained for them ultimate success. The mushroom genius, flashing brilliantly through school and college, rarely gains a great place in the world of men and affairs.

HOW MOTOR CARS ARE SMUGGLED ACROSS THE LINE

Ottawa.—Hundreds of automobiles are smuggled every year into Canada and seasonal disclosures are expected in the near future. The automobiles include both new and second-hand cars, some of them stolen in the United States.

Investigation already made by the Department of Customs shows that 90 per cent of the stolen goods smuggled into Canada are motor cars. The fact that there is no sale for second-hand cars in the United States swells the traffic.

Special officer Shaw, who assisted Inspector Walter Duncan on the famous Balisalon case, has been assigned to the automobile inquiry, while detectives in the role of mechanics are said to have been posted in garages throughout the Dominion in the hope of gathering useful information. The law provides penalties, but the trouble is to catch the smugglers, who are exceedingly crafty. They buy old cars in the United States, secure customs export papers on them and change the numbers on the cars using the papers for the purpose of bringing in new cars at the valuation of the old ones. Not only that, but they use the same papers several times over. The cars are sold in Canada to unsuspecting purchasers who are fooled by the bogus papers. Autos thus smuggled into the country, of course are subject to confiscation by the Government.

This method of evading the customs laws was explained today at the sitting of the customs investigating committee by C. P. Blair, customs official, who stated it was a method frequently employed in getting stolen cars across the border into the Dominion.

Dealing With China

No Policy of Brutal Force To Be Used By Powers

London.—Downing Street is not aware that a "policy of brutal force" is contemplated against China by the foreign powers.

Senator Borch, chairman of the United States Senate foreign relations committee, recently warned the powers against the adoption of any imperialistic or ruthless attitude toward China.

Neither is it feared that the forthcoming report of the extra-territoriality commission will be made an excuse for intervention in China. In fact it is stated, the British will be disappointed if the report does not help to conciliate the present Chinese factions.

Union Jack Painted On British Vessels

Plan to Protect Ships Flying in Chinese Waters

Shanghai.—In an effort to prevent their being attacked by the Chinese militarists along the Yangtze river, many British vessels flying in Chinese waters are having the Union Jack painted on their sides. Shippers hope this will make firing on them or commandeering them by the Chinese warships less likely. The Chinese warships are reported to have been completely beaten. All strikers have been summarily dismissed and new crews employed.

Fall To Pay Sales Tax

Ottawa.—Two thousand companies in Canada did not pay their sales tax to the Government when it was due. This is not ascribed to inability to pay, but to the fact that no interest is charged on overdue payments. It is probable that an amendment will be introduced providing penalties that will greatly reduce the number of delinquents. Heavy penalties are provided for persons who do not pay their income taxes promptly.

Two Vessels Wrecked

St. John's, Nfld.—Two coasting vessels were wrecked in a wind storm that swept Newfoundland but no loss of life resulted. The crews of both vessels managed to reach shore after suffering great hardship. The Marlon, of Carmichael, Captain A. Blundon, was driven ashore at Baccalieu and the schooner Prospector, locally plying up on the rocks at Carleton.

Calgary.—Executives of the U.F.A. in session here re-affirmed the principle laid down a year ago that U.F.A. federal members preserve their identity in the House of Commons as a group and not as individuals. They also agreed to become part of any other group not organized on the same basis for political action as the U.F.A.

West Captures Prizes

Championships Won in Competition With Best Cattle on American Continent

Toronto.—Stepping out in international company representing the cream of the cattle on the American continent, five head of Saskatchewan cattle won two championships, two reserve grand championships, two firsts, one third, one fourth and one fifth prize at the Royal Winter Fair here today.

Two Aberdeen Angus calves, shown by W. J. F. Warren, Belbeek, scored a triumph for their owner, "Black Monarch," 11-month-old bull calf, captured first place in the junior grand championship and reserve grand championship in succession, while "Miss Quality of Belbeek" gained exactly similar honors in the female Aberdeen Angus classes for Mr. Warren.

G. K. Altonby, Crossfield, Alta., walked off with the junior bull championship in dual purpose Shorthorns as well as the reserve grand championship. Albert made a killing in the Herefords, O. A. Boggs, Dryden, taking the male and female grand championships and both the senior championships, while Frank Collicutt, Crossfield, won the junior bull and reserve senior championships in female classes. These two men made a clean-up in the Hereford classes, capturing, in addition to championship ribbons, several premier and other prizes.

H. Hyslop and Son, Killarney, Man., also made a good showing in Herefords.

France Planning To Cut Standing Army

Bills Call for Reduction From 650,000 to 400,000 Men

Paris.—The bill of the total number of men under arms in France from 650,000 to 400,000 is called for in three bills which will be introduced in the Chamber of Deputies. The measures also call for a reduction in the period of compulsory military service from eighteen to twelve months.

The bills, which will be introduced by Minister of War Painleve, provide for the calling of conscripts at the age of 21 instead of 20 and for the recruiting of volunteers numbering more than 100,000. The volunteers will relieve the conscripts from "fatigue details." Under this system the young soldiers will devote their entire year's training to purely military instruction. The contingent of conscripts will be called up in half yearly sections in order to insure the presence under the flag of half the entire army with at least six months' training.

M. Painleve estimates that the new law will increase the expense of the War Department at the beginning, but he proposes to make up the additional sums needed from the sale and rental of idle property of the Department of War.

Says Canada Is Prosperous

President of Canadian Bankers' Association Reviews Financial Situation

Montreal.—A comprehensive review of the business and financial situation in this country the past year, and the factors leading to the general improvement which has taken place were contained in the address by C. E. Nell, president of the Canadian Bankers' Association and general manager of the Royal Bank of Canada, who told a tale of prosperity at the annual general meeting of that body held in Montreal. Mr. Nell stated that the wave of prosperity was reflected in a pronounced improvement in the banking situation in the Dominion and also dealt at some length with the return of this country to the gold standard, which was accomplished without any stress or strain whatsoever.

Not in agriculture alone is found evidence of Canada's prosperity, stated Mr. Nell, who added that railroad earnings are satisfactory, building was most active during the past year, newspaper production has exceeded that of the United States and the production and export were at record level and that generally various lines of manufacture show satisfactory growth.

British Ship Hunts

For Chinese Pirates

Escaped in Lifeboat After Attacking and Firing Cruiser

Hong Kong.—A boatload of passengers from the British steamer "Sunling" which was boarded by pirates 50 miles from here and badly damaged in a fight which ensued between the buccanniers and two officers of the ship have been brought here by the British destroyer Verity.

Twelve pirates were killed in the fight. The attackers fired the ship but the timely arrival of the British cruiser Bluebell saved it from destruction. Nine of the pirates were captured and the Bluebell is, hunting others who escaped in a lifeboat.

Wireless reports from the Chinese owned steamer Hong Peng, which is en route from Singapore to Hong Kong say there are 20 casualties aboard. It is thought here it may prove another case of piracy, but the report received was too vague for any definite conclusions.

CUSTOMS PROBE IS REOPENED IN THE EAST

Ottawa.—Customs appraisers whose duty it is to place a value on goods imported into the Dominion sometimes make mistakes. Before the customs royal commission, which resumed sitting here, R. L. G. Omer, K.C., one of the commission counsel stated that an importation of very valuable antique furniture entering the port of Montreal had been appraised as "second-hand furniture and rated as such" by the appraisers through whose hands it passed. Evidence taken before the parliamentary committee last session had shown that some of the appraisers were absolutely without qualifications for their work, Mr. Calder said.

Counsel mentioned these matters when J. A. Watson, Dominion appraiser, was on the witness stand before the commission. Both Mr. Watson and his assistant, Edward Richards, informed the commission that they were not consulted in any way officially as to the choice of appraisers for the posts of customs appraisers at points outside Ottawa. Customs appraisers generally became such by promotion, Mr. Richards thought, but he and Mr. Watson agreed that the civil service commission was the body which would probably tell the commission about the matter.

Resumption of the hearing this morning was prefaced with an expression of regret from Chairman J. T. Brown that Sir Francois Lacombe had retired from the chairmanship of the commission. It was announced that after the Ottawa sitting, the commission will proceed to Vancouver.

A statement was submitted covering the number of train seizures at various points in Canada from 1923 to date. The largest number was made at Windsor, Ont., numbering 465. Next came St. John's, Que., 371; Montreal, 355; Vancouver, 237. Mr. Brown explained that the figures were made from the trains, which accounted for the large number made at some comparatively small places.

He'd Rather Dodge a Bear Than a Motor

Col. Moore giving advice on a mountain journey to a fair visitor at Banff.

An encounter with a grizzly in the heart of the Canadian Pacific Rockies is a tame experience compared with dodging through traffic in Montreal, according to Col. Phil A. Moore, pioneer guide of Banff, Alberta, who arrived at Windsor Station, Montreal, over C.P.R. lines recently.

But of course, Col. Moore feels different about bears and other wild animals than most people do. He knows them intimately, and has made a careful study of their habits and dis-

PREMIERS ARE SHOWN BRITAIN'S LARGEST AIRSHIP

London.—The Dominion Premiers at Cardington inspected the structure of the new airship which is to bring Canada within two and a half days of London, as referred to by Sir Samuel Hoare, head of the British air ministry, at the Imperial Conference about three weeks ago.

The structural work on the ship so far only advanced sufficiently to give an idea of its immense size. Nearby was R33, the military airship which flew above the German fleet when it surrendered on the conclusion of the armistice. Great as the R33 appeared it could pass within the framework of R101, the airship now under construction.

The R101, with a stator ship, will have accommodation for 100 passengers each and their baggage and 10 tons of mail matter. They will each have sleeping cabins of two or four berths, promenade decks, lounges, smoking rooms and dining rooms capable of seating 50 people at one time.

For the benefit of the visitors, R33 was taken from its shed and it made an ascent.

Premier Mackenzie King has already indicated the intention of the Canadian Government to proceed with the erection of a mooring mast in Canada for the reception of airships.

Northern Branch Line May Be Extended

Would Form Junction in Manitoba With H. B. Railway

Winnipeg.—Extension of the Canadian National branch line at Gypsum Point, Man., to Grand Rapids, on the Saskatchewan River, was promised by Sir Henry Thornton on condition that the undertaking could be shown to be profitable, according to a delegation that waited on the C.N.R. president here.

The proposed extension would form a junction with the Hudson's Bay Railway. The delegation was composed of Mayor R. H. Webb, of Winnipeg, representative of the On-to-the-Bay Association and officials of other Manitoba organizations.

Conference Is Success

London.—"The Imperial Conference has not been doing much to attract publicity," said Lt.-Col. L. G. Amery, secretary of state for Dominion Affairs, in a speech here, "but from the point of view of mutual understanding it has been the most successful of all the Imperial conferences." Colonel Amery said he thought the amount of practical work accomplished by the various committees of the conference was greater than at any previous gathering of the premiers of the Empire.

Report On Land Settlement

London.—A lengthy report on land settlement is in the course of preparation by the Overseas Settlement committee of the Imperial conferences. The report reviews the situations throughout the Empire and the steps taken by the different Dominions in connection with migration.

To Ratify G.T.P. Payment

Will Bring Down Legislation to Give Effect to Arrangement

Ottawa.—Hon. C. A. Dunning, Minister of Railways and Canals, announced that it is the intention of the federal government to bring down legislation at the December session of Parliament to give effect to the arrangement which was reached in London in September last by representatives of the Canadian National Railways and the holders of Grand Trunk Pacific four per cent debenture stock, over the payment of interest. There has been difficulty and dispute since the Grand Trunk Pacific was thrown into receivership in 1919 by the action of the former management. Admittedly, the Grand Trunk Pacific had accepted the arrangements. On this side, the scheme of arrangement requires to be ratified by Parliament.

No British Envoys Will Be Appointed

Government Not Likely to Send Ministers to Dominions

Ottawa.—A cabled press report from London intimating that the British Government will appoint ministers in each of the Dominions is not accepted here in Government circles as at all likely. It is understood that in the official despatches reaching this country from the conference, there has been no indication of such a step and it is thought to be doubtful if any such plan has been entertained. A further report stating that the Prime Minister of the Dominions have declined to participate in the Locarno pact is not regarded as official. Premier Bruce of Australia recently stated publicly that he was in favor of the adoption of the Locarno agreement by the Commonwealth.

Airplanes Come To Aid of Passengers

Drop Food For People Stranded on Desert Near Bagdad

London.—Pilots of the Royal Air Force have been engaged in dropping dates and other foods for stranded passengers in the cross-desert motor car service between Beirut and Bagdad, says a despatch to The Daily Mail from Bagdad. The distance of the cross-desert route is nearly 600 miles.

Many cars have been stuck fast for more than a week. In a sea of mud caused by an exceptional rainfall, The Basra-Bagdad Railroad has been washed out at several places and a number of houses in Bagdad have collapsed.

THE STATUS OF DOMINIONS TO BE DETERMINED

London.—In connection with discussions by the Imperial Conference committee on the Empire relations there is a proposal to widen the powers of the high commissioners of the various Dominions and give them semi-diplomatic functions. So far, however, the matter is in abeyance.

The conference resolution with reference to the Locarno treaties as previously indicated will be confined, it is expected, to an expression of appreciation of the Locarno spirit and the work done by Sir Austen Chamberlain, foreign secretary, in promoting peace in Europe, but it will not imply acceptance of the treaties by the Dominions. On this point, it is understood there has been a division of opinion among the Dominion delegates, while the imperial calling for the formal adhesion of the Dominions to the treaties is not being pressed.

The proposed statement on the constitution of the Empire, on which the premiers' committee on Inter-Empire relations has been working, is now taking definite shape. The statement, it is believed, will follow the following:

1.—Define more clearly than at present the status of the Dominions in the Empire.

2.—Recognize Dominion autonomy, not only in purely domestic matters but also in questions of foreign policy primarily concerning such Dominion. The premiers' committee of the Imperial Conference has not yet concluded their work, and some changes may yet be made in the statement outlined above.

Among the Canadian delegation there was evident a feeling of satisfaction at the way things are progressing at the Imperial Conference. "We have every reason to be pleased," said one influential member of the delegation. "We did not, of course, get everything we should like but we made a greater advance even than we expected."

BRITISH MINERS REFUSE TERMS TO END STRIKE

London.—The whole question of the coal settlement is again in confusion. The Miners' Federation secretary, A. J. Cook, today announced that the district vote was against acceptance of the Government's terms of settlement of the strike. All the large districts were opposed to the conditions. This came as a great surprise to the leaders of the delegates conference which had looked upon endorsement of the conference's agreement with the Government as a foregone conclusion.

No figures have been issued, but it is understood that the Government's proposals have been rejected by a majority of 100,000.

There is talk now of taking a direct ballot of the men, in order, if possible, to avoid absolute rejection of the Government's proposals, which will be withdrawn if the district vote is against. Meanwhile, even in Wales, where the vote was against settlement, the men are resuming work in large numbers.

Young People Protest

Youth of Ontario Say They Are Progressing Along the Right Lines

Toronto.—A resolution repudiating "the propaganda carried on by those interested in the return of the free sale of liquor which has represented the young people of this province in most unfortunate terms" and calling for wholehearted support of the Ontario Temperance Act, were the tangible results of three meetings held here which 7,000 young people from Toronto and district attendance figures.

Passing of the resolution followed addresses by several young men and women prominent in university and other circles in Toronto. At each meeting the speakers stressed the contention that young people were not going to the "how-how" as some people thought but were progressing along the right lines.

London Firm Insures Turkish Cruiser

Is Ship That Decided Turkey to Join Germany in War

London.—There is a flavor of irony in the fact, says The Daily Mail, that insurance of about \$200,000 has been placed with Lloyd's, London, against risks of damage to the Turkish cruiser Sultan Yavuz Selim, formerly the German Goeben, which is being lifted into dock at Jeddah, near Constantinople, for repairs by German engineers. Early in the war, the cruiser, then belonging to Germany, arrived in Constantinople after a spectacular escape from British pursues in the Mediterranean. The arrival of the Goeben through the Dardanelles was one of the factors which led Turkey to join Germany instead of the allies in the war.

Will Not Enforce Restrictions

United States Will Not Ban Workers From Crossing Line

Washington.—Officials of the Department of Labor, which has control over immigration matters, stated that while restrictions on persons who live in Canada and cross the border daily to work in the United States will be gradually tightened, an wholesale action is contemplated.

Immigration officials realize that enforcement of any such policy would cause strong protest, not only from Canadian workers but from some United States citizens who live across the border.

Investigate Cancer Cure

London.—Another claim to a cancer cure is under investigation by the Medical Research Council of London, and the council has stated that it will be provided with details of alleged cures, by Dr. Michael Graham, who has practiced for 50 years on the island of Madeira. The effective agency, says Dr. Graham, is a substance from an infusion of the bark of the cinchona tree of which was accidentally discovered by Dr. Fortunato Pitta, of Funchal, Madeira.

B.C. Chooses Rhodes Scholar

Vancouver.—Albert E. Grauer, 24, a 25 graduate of the University of British Columbia, who is now attending the University of California, was chosen as British Columbia's Rhodes Scholar to take up residence at Oxford University in October, 1927, by the selection committee for this province. Grauer was a member of the U.B.C. basketball team which participated in the finals for the Canadian championship at Ottawa.

five other persons.A California paper remarks: "Part
of California feels a 'light earth-
quake tremor, lasting a few seconds,
harming nobody, and Eastern news-
papers make as much fuss as though
Heaven had fallen upon earth. They
forget that one single wind in the
northeast recently killed more peo-
ple than earthquakes have killed in
California in fifty years. In fact the
whole loss of life in that exaggerated
earthquake would only about equal
that of one little automobile smashup
elsewhere."**Local and General Items**Calgary curlers started to "howl"

is not so very wise, because his
advertisements tend the public
what he has to sell, and if his ad. is
not on deck the people pass him up,
by heck, and none of them will hesi-
tate to trade with merchants up-to-
date. To stop your ad. we would re-
mark, is just like winking in the dark.
You may know what it means, but
gee! nobody else can see. So do not

in your hands, feel the three dark
depressions on the end. If all three
are equally hard and tough, open
your find quick. There may be a
pearl inside. The phenomenon has
been known to happen, most frequ-
ently, on the island of Celebes, in the
Dutch East Indies, near the Moluccas
group. Usually the coconut pearl is
about the size of a pea and is
found floating in the milk. Some-
times it comes a little larger, oval
in shape, and fastened to the meat.Elsewhere in this issue will be
